I. PURPOSE

The purpose of this document is to identify various policies and procedures that enhance opportunities for a prudent and systematic investment process. The initial step toward a prudent investment policy is to organize and formalize investment-related activities. Related activities, which comprise good cash management, include accurate cash projection, the expeditious collection of revenue, the control of disbursements, and cost effective banking relations. In concert with these requirements are the many facets of an appropriate and secure short-term investment program.

II. SCOPE

It is intended this policy cover all financial assets under the direct authority of Montgomery County. These funds include all governmental funds, proprietary and fiduciary funds, and are accounted for in the County's Comprehensive Annual Financial Report.

This investment policy applies to all transactions involving the financial assets and related activity of all the foregoing funds.

III. DEFINITIONS

Unless the context requires otherwise, the following terms and phrases used in this Policy shall mean the following:

1. "Collateral" means any security or other obligation, which the County authorizes to serve as security for the deposit of County funds.
2. "Collateral act" means Chapter 2257, Texas Government Code, as amended from time to time.
3. "Commissioners Court" means the elected governing body of Montgomery County consisting of the County Judge and four (4) Precinct Commissioners.
4. "Delivery vs Payment (DVP)" means a method of settling trades in which cash is exchanged for securities simultaneously.
5. "Depository Bank" means the banking institution that is contracted to process the County's receipts, disbursements, and investments, and to provide safekeeping services.
6. "Investment Act" means Chapter 2256, Texas Government Code, as amended from time to time, also referred to as the Texas Public Funds Investment Act or PFIA.
7. "Investment Officer" means the Employee appointed as County Investment officer to administer all investment activity of County funds under the Investment Act standard of care "prudent person" and to monitor compliance and management-level controls.

IV. AUTHORIZATION

In accordance with Section 116.112, Local Government Code, the County Treasurer, upon direction of Commissioners' Court, is authorized to withdraw funds of the county from a county depository, if the funds are not required immediately to pay obligations of the county, and to invest these funds in accordance with the statute.

There is hereby an investment committee consisting of the County Treasurer, County Judge and Montgomery County Citizen with expertise in finance area.

The investment committee shall meet at least annually to determine general strategies and to monitor results. The investment committee shall include in its deliberations such topics as: economic outlook, portfolio diversification and maturity structure, potential risks to the County's funds, approval of authorized financial institutions, and the target rate of return on the investment portfolio. The County Treasurer shall formally report to Commissioners' Court on a monthly basis.

The provisions of Chapter 2256 as amended effective September 1, 2019, of the Texas Government Code are incorporated herein by reference for all purposes. (See Appendix C attached). Should the Montgomery County Statement of Investment Policy conflict in any way with any portion of Chapter 2256, the language of the Government Code shall prevail, except where the investment policy is more restrictive than the Code.

A. TRAINING

The Investment Officer or designee shall be an active member of the Texas Association of Counties Investment Academy or in the active process of attaining membership and attend investment training as required by the Investment Act.

B. DISCLOSURE OF RELATIONSHIPS OF PERSONS SELLING INVESTMENTS TO THE COUNTY

The Investment Officer or Designee or contracted entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entities shall file a statement disclosing that personal interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. The Investment Act, Section 2256.005(i) should be referred to for more qualifying events and it is the responsibility of the Investment Officers, and Broker/dealers to be knowledgeable of and compliant with reportable events and relationships.

V. INVESTMENT OBJECTIVES

Safety of principal is the foremost objective of the County, followed by liquidity and yield. Each investment transaction shall seek to ensure that capital losses are avoided, whether they are from securities defaults or erosion of market value.

Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.

The County's investment portfolio will remain sufficiently liquid to enable the County to meet all operating requirements, which might be reasonably anticipated.

The investment portfolio shall be designed to attain a market-average rate of return throughout budgeting and economic cycles, taking into account the County's investment risk constraints, cash flow characteristics of the portfolio, and state law that restricts the placement of County funds.

The County will attempt to diversify its investments to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.

The County will not make investments for the purpose of trading or speculation as the dominant criteria, such as anticipating an appreciation of capital through changes in market interest rates.

"The County adheres to the guidance provided by the "prudent person rule", which obligates a fiduciary to ensure that: "investments shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probable income to be derived."

In managing its investment portfolio, the County will specifically avoid any purchase of investments, or any investment practice or procedures not specifically authorized under terms of this document.

All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment officials shall avoid any transaction that might impair public confidence in the County's ability to govern effectively. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.

A. INVESTMENT FACILITATION

Montgomery County Interest and Sinking Funds will be invested consistent with debt payment dates, at the highest and best rate available. These funds may be

invested for up to 365 days.

In order to allow the maximum flexibility for Montgomery County investments, the Commissioners' Court extends the County Treasurer full authority for investment of funds between meetings of the Commissioners' Court.

Funds will generally be placed for short-term investment periods, i.e., up to 90 days, unless a cash flow forecast indicates the availability of idle funds for longer than 90 days.

F. INTERNAL CONTROLS

The Investment Officer investing funds shall establish a system of internal controls. At least annually, the Commissioners Court shall review those controls as established and the control in actual practice. The controls shall be designed to prevent losses of public funds arising from fraud, employee error, and misrepresentation by third parties, or imprudent actions by employees and officers of the County. Controls deemed most important would include: separation of duties, separating transaction authority from accounting and recordkeeping, custodial safekeeping, avoidance of bearer-form securities, clear delegation of authority, specific limitations regarding securities losses and remedial action, written confirmation of telephone transactions, minimizing the number of authorized investment officials, and documentation of transactions and strategies.

G. BANKS AND SECURITIES: DEALERS SELECTION

The County's Depository shall be selected every four years in accordance with statutory provisions. Primary government securities dealers that report to the New York Federal Reserve Bank Court shall be selected. (It is acknowledged that inclusion on the primary dealer listing of the Federal Reserve Bank of New York is not a guarantee of credit worthiness.) Secondary Dealers must abide by the Capital Adequacy Standards. We require immediate disclosure when they fall short of cash to meet this Standard. We also require an independent certification by outside auditors of Secondary Dealers.

Approved Montgomery County Brokers and/or Money Market Funds/Investment Pools are required to notify us of any legal action(s) against them during the term of our agreement with them.

Broker/dealers desiring to become approved broker/dealers for Montgomery County for investment transactions must supply the following: (1) the most recent audited financial statements for the financial institution or broker/dealer and (2) evidence of registration with the appropriate regulatory agency.

Commissioners Court will approve at least annually a broker/dealer list. At the recommendation of the Investment Committee, the Commissioners Court may approve additions or removals to the brokers/dealers list on a quarterly basis. Following approval by the Commissioners Court of any update to the broker/dealers list, the list will be posted on the Montgomery County Treasurer's website and available in hard copy form in the Montgomery County Treasurer's Office.

H. CERTIFICATIONS FROM APPROVED BROKER/DEALERS

A copy of the investment policy shall be presented to a qualified representative of any business offering to engage in an investment transaction with the County. A business organization includes banks, broker/dealers, and investment pools. The qualified representative of the business organization offering to engage in an

investment transaction shall execute a written instrument in a form acceptable to the County substantially to the effect that the business organization has (1) received and reviewed the investment policy of the entity; and (2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions not authorized within the investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entire portfolio or requires and interpretation of subjective investment standards. The investment officer may not acquire or otherwise obtain any authorized investment described in the investment policy from a person who has not delivered the required document.

I. MATURITY

Assets of the County shall be invested in instruments whose maturities do not exceed three years (1095 days) at the time of purchase, except Commercial Paper must have a stated maturity of 270 days or fewer from date of issuance.

It is the intent that investments in all funds shall be managed in such a way that any market price losses resulting from interest-rate volatility would be offset by coupon income and current income received from the balance of the portfolio during a twelve-month period. No maturity extension should be undertaken if it would result in negative income on the overall fund's portfolio during a given year.

J. DIVERSIFICATION

Where possible, it is the policy of the County to diversify its investment portfolio. Assets held in the common treasury fund, and other investment funds, shall be diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity. As specific diversification strategy, the following general policies and constraints shall apply: Portfolio maturities shall be staggered in a way that avoids undue concentration of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.

Liquidity shall be ensured through practices to ensure that the next disbursement date and payroll date are covered through maturing investments or marketable U.S. Treasury Bills.

K. RISK TOLERANCE

Portfolio diversification is employed as a way to control risk. Investment officer will exercise prudence in the selection of securities, as a way to minimize default risk. No individual investment transaction shall be undertaken, which jeopardizes the total capital position of the overall portfolio. All investment reports shall specifically address whether current investment results have been affected by any of the foregoing risks, and shall explain what actions investment officials have taken to control or correct for such risks.

In addition to these general policy considerations, the following specific policies will be strictly observed:

1. All investment funds shall be placed directly with qualified financial institutions. The County will not deposit or invest funds through third parties or money brokers, with the exception of approved money market funds, government pooled funds, and as part of investment services rendered under a current depository contract.
2. All transactions will be executed on a delivery versus payment basis.
3. The County will not enter into Reverse Repurchase Agreements, nor trade in options or future contracts.
4. A competitive bid process will be used to place government security purchases and repurchase agreements. On a continuing basis, we will assess our securities dealers based on the following criteria:
 - a. Number of transactions competitively won.
 - b. Prompt and accurate confirmation of transactions.
 - c. Efficient securities delivery.
 - d. Accurate market information.
 - e. Account servicing.
5. Before accepting funds or engaging in investment transactions with the County, officials of approved depository and securities dealers shall be required to familiarize themselves with the County's investment objectives and constraints.

L. SAFEKEEPING AND CUSTODY

To protect against potential fraud and embezzlement, the assets of the County shall be secured through third-party custody and safekeeping procedures. The investment officer shall require evidence of third party safekeeping in the form of receipts for same on all transactions. Bearer instruments shall be held only through third-party institutions. The investment official shall be bonded to protect the public against possible embezzlement and malfeasance.

Safekeeping procedures shall be reviewed annually by the independent auditor.

VI. REPORTS: MONTHLY AND QUARTERLY

A. MONTHLY

The County Treasurer shall provide monthly reports reflecting investments that provide a breakout of each authorized investment institution, and the funds invested with each institution. The estimated return (interest earnings) of the investment, and the length of time the funds are invested for. These monthly reports shall be provided to the governing body, the investment committee members, and the investment committee advisors.

B. QUARTERLY

At least once a quarter the County Treasurer shall provide a Quarterly Investment Report that complies with the Public Funds Investment Act, Section 2256.023 and meets GAAP reporting requirements.

C. YEARLY

The County Treasurer shall provide a Yearly Investment Report that complies with the Public Funds Investment Act.

The County's Broker/dealer Questionnaire shall be remitted annually. The Questionnaire must be filled out completely for purposes of updating and review by the County's Investment Committee.

D. REPORTING FORMAT

All monthly and quarterly reports shall be reported in a form approved by the Investment Committee and Commissioner's Court.

VII. STRATEGY

The strategy for Montgomery County Investments as agreed upon and recommended by the Montgomery County Investment Officer, apply to the following accounts:

- General Fund
- Special Revenue Funds
- Debt Service Funds
- Capital Projects Funds
- Agency Funds

Our strategy is as follows:

1. Safety of principal is the foremost objective of the County, followed by liquidity and yield. Each investment transaction shall seek to ensure that capital losses are avoided, whether they are from securities defaults or erosion of market value.
2. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
3. The County's investment portfolio will remain sufficiently liquid to enable the County to meet all operating requirements, which might be reasonably anticipated.
4. The investment portfolio shall be designed to attain a market-average rate of return throughout budgeting and economic cycles, taking into account the County's investment risk constraints, the cash flow characteristics of the portfolio, and state law that restricts the placement of county funds.

5. The County will attempt to diversify its investments to avoid incurring unreasonable and avoidable risks regarding specific types or individual financial institutions.
6. The County will not make investments for the purpose of trading or speculation as the dominant criteria, such as anticipating an appreciation of capital through changes in market interest rate.
7. The County adheres to the guidance provided by the “prudent person rule”, which obligates a fiduciary to ensure that, “. . . . investments shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation but for investment considering the probable safety of their capital as well as the probable income to be derived.”
8. In managing its investment portfolio, the County will specifically avoid any purchase of investments, or any investment practice or procedure not specifically authorized by the investment policy as approved by Commissioner’s Court.
9. All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment officials shall avoid any transaction that might impair public confidence in the County’s ability to govern effectively. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.

VIII. TYPE OF SECURITIES

A. UNITED STATES TREASURY SECURITIES

U. S. Treasury – Bill (T-Bill) A treasury bill is an obligation of the United States Government to pay the bearer a fixed sum on a specific date . T-Bills are sold at a discount from their par (face) value.

The return on investment is the difference between the discounted purchase price and the selling price or face value at maturity. T-Bills are short-term securities with fixed maturity of one year or less. T-Bills are backed by the full faith and credit of the United States Government.

U.S. Treasury – Notes and Bonds (T-Notes and T-Bonds) T-Notes and T-Bonds are coupon securities paying interest every six months. T-Notes have a fixed maturity of not less than one year or more than ten years. T-Bonds are securities with maturities of more than ten years. T-Notes and T-Bonds are sold at a premium or discount depending on the coupon rate of the security. Interest is accrued for those T-Bonds purchased between interest periods. T-Notes and T- Bonds are backed by the full faith and credit of the United States Government.

B. UNITED STATES GOVERNMENT AGENCY AND INSTRUMENTALITY SECURITIES

Tennessee Valley Authority (TVA), Established by an act of congress in 1933 to develop the resources of the Tennessee Valley region. TVA bonds are not obligations of, nor are they guaranteed by, the United States.

C. INSTRUMENTALITIES

Federal Farm Credit Bank (FFCB) Federal Farm Credit Bank bonds are not backed by the full faith and credit of the United States government. The bonds are secured by collateralized obligations of the banks operating under federal charter and governmental supervision.

Federal Home Loan Bank (FHLB) system was organized in 1932 under the Federal Home Loan Bank Act and restructured under the Financial Institutions Reform Recovery, and Enforcement Act of 1989 (FIRREA). Twelve District Banks comprise the system and are distributed geographically around the country. The obligations of the system are not backed by the full faith and credit of the United States Government. However, the banks are required to maintain secured advances, guaranteed mortgages, U.S. Government securities or cash in an account of at least equal in size to its outstanding obligations.

D. GSE – GOVERNMENT SPONSORED ENTITIES

1. Fannie Mae

Fannie Mae is a government-sponsored entity that was established by Federal law and work under a government charter. The government established Fannie Mae in 1938 to provide government-backed home loans in an attempt to increase levels of home ownership in America. Fannie Mae does not originate or provide mortgages to borrowers. It purchases and guarantees home loans through the secondary mortgage market. Fannie Mae creates more liquidity for lenders such as banks, thrifts, and credit unions, which in turn allows them to underwrite or fund more mortgages. Fannie Mae's mortgage backed securities are purchased by institutions such as insurance companies, pension funds, and investment banks. In the latter half of 2008, Fannie Mae and Freddie Mac were taken over by the government via conservatorship of the Federal Housing Financing Committee. Treasury made a commitment to provide funding under certain circumstances if Fannie has a net worth deficit. Historically, Fannie Mae purchased mortgage loans from bank lenders.

2. Freddie Mac

Freddie Mac is also a government-sponsored entity established by Federal law. Freddie Mac is set up similar to Fannie Mae and is still under conservatorship of the Federal Housing Finance Committee. Historically, Freddie Mac provided mortgage funding for savings and loan lenders.

E. MUNICIPAL BONDS

Municipal bonds are debt obligations issued by states, cities, counties and other government entities that use the money to build schools, highways, hospitals, sewer systems and many other projects for the public good. When you purchase a municipal bond you are lending money to a state or local government entity, which in turn promises to pay you a specified amount of interest.

F. TAXABLE MUNICIPAL BONDS

Taxable Municipal bonds are an entirely separate market of municipal issues that are taxable at the federal level, but still offer a state and often local tax exemption on interest paid to the residents of the state of issuance. Taxable municipals offer yields more comparable to those of taxable sectors, such as corporate bonds or bonds issued by U.S. government agencies, than to those of tax-exempt municipals.

G. COMMERCIAL PAPER

Commercial paper is an unsecured form of promissory note that pays a fixed rate of interest. It is typically issued by large banks or corporations to cover short-term receivables and meet short-term financial obligations, such as funding a new project. As with any other type of bond or debt instrument, the issuing entity offers the paper

assuming that it will be in a position to pay both interest and principal by maturity. It is seldom used as a funding vehicle for longer-term obligations.

Commercial Paper was first introduced over 100 years ago, when New York merchants began to sell their short-term obligations to dealers that acted as middlemen. These dealers would purchase the notes at a discount from their par value and then pass them on to banks and other investors. The borrower would then repay the investor an amount equal to the par value of the note.

Commercial Paper usually pays a higher rate of interest than guaranteed instruments and the rates tend to rise along with national economic growth. They are backed solely by the financial strength of the issuer. Standard and Poor's and Moody both rate commercial paper on a regular basis.

Sec. 2256.005. INVESTMENT POLICIES; INVESTMENT STRATEGIES; INVESTMENT OFFICER. (a) The governing body of an investing entity shall adopt by rule, order, ordinance, or resolution, as appropriate, a written investment policy regarding the investment of its funds and funds under its control.

(b) The investment policies must:

(1) be written;

(2) primarily emphasize safety of principal and liquidity;

(3) address investment diversification, yield, and maturity and the quality and capability of investment management; and

(4) include:

(A) a list of the types of authorized investments in which the investing entity's funds may be invested;

(B) the maximum allowable stated maturity of any individual investment owned by the entity;

(C) for pooled fund groups, the maximum dollar-weighted average maturity allowed based on the stated maturity date for the portfolio;

(D) methods to monitor the market price of investments acquired with public funds;

(E) a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis; and

(F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section [2256.021](#).

(c) The investment policies may provide that bids for certificates of deposit be solicited:

(1) orally;

(2) in writing;

(3) electronically; or

(4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each

investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

- (1) understanding of the suitability of the investment to the financial requirements of the entity;
- (2) preservation and safety of principal;
- (3) liquidity;
- (4) marketability of the investment if the need arises to liquidate the investment before maturity;
- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as

fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg.,
ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg.,
ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any business organization offering to engage in an investment transaction with an investing entity. For purposes of this subsection and Subsection (l), "business organization" means an investment pool or investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity's funds. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization:

(A) is dependent on an analysis of the makeup of the entity's entire portfolio;

(B) requires an interpretation of subjective investment standards; or

(C) relates to investment transactions of the entity that are not made through accounts or other contractual arrangements over which the business organization has accepted discretionary investment authority.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a business organization that has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section 404.024.

Sec. 2256.006. STANDARD OF CARE.

(a) Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

- (1) preservation and safety of principal;
- (2) liquidity; and
- (3) yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

(1) the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and

(2) whether the investment decision was consistent with the written investment policy of the entity.

Amended by Acts 1995, 74th Leg., ch. 402, Sec. 1, eff. Sept. 1, 1995.

(b) An investing entity created under authority of Section 52(b), Article III, or Section 59, Article XVI, Texas Constitution, that has contracted with an investment management firm under Section 2256.003(b) and has fewer than five full-time employees or an investing entity that has contracted with another investing entity to invest the entity's funds may satisfy the training requirement provided by Subsection (a)(2) by having an officer of the governing body attend four hours of appropriate instruction in a two-year period that begins on the first day of that local government's fiscal year and consists of the two consecutive fiscal years after that date.
